Nucleic Acid Isolation Kits

Thermo Scientific™ GeneJET™ DNA and RNA purification kits are designed for rapid, efficient, and convenient purification of DNA and RNA from a wide range of samples. Kits are based on a proprietary silica-based membrane technology in the form of convenient spin column, eliminating the need for expensive resins, toxin phenol-chloroform extractions, or time-consuming alcohol precipitation. **Save 10% on your next order of GeneJET™ Isolation Kits.**

Format	Description	Size	Cat. No.
GeneJET DNA and RNA Purification Kits			
Plasmid DNA purification	GeneJET Plasmid Miniprep Kit	50 preps/250 preps	K0502/K0503
	GeneJET Plasmid Midiprep Kit	100 preps	K0482
DNA fragment purification	GeneJET Gel Extraction Kit	50 preps	K0691
	GeneJET PCR Purification Kit	50 preps/250 preps	K0701/K0702
Genomic DNA purification	GeneJET Genomic DNA Purification Kit	50 preps/250 preps	K0721/K0722
	GeneJET Whole Blood Genomic DNA Purification Mini Kit	250 preps	K0782
Total RNA purification	GeneJET RNA Purification Kit	50 preps/250 preps	K0731/K0732
MagMAX Nucleic Acid Isolation Kits			
Total nucleic acid isolation	MagMAX™ Total Nucleic Acid Isolation Kit	100 preps	AM1840
RNA isolation	MagMAX™-96 Total RNA Isolation Kit	96 preps	AM1830
	MagMAX™ <i>miRvana</i> ™ Total RNA Isolation Kit	96 reactions	A27828
Viral RNA isolation	MagMAX™ Viral RNA Isolation Kit	50 preps	AM1939
	MagMAX™-96 Viral RNA Isolation Kit	96 preps	AM1836
DNA isolation	MagMAX™-96 DNA Multi-Sample Kit	96 preps	4413022
Plant RNA isolation	MagMAX™ Plant RNA Isolation Kit	96 preps	A33784
Pathogen nucleic acid isolation	MagMAX™ Pathogen RNA/DNA Kit	480 preps	4462359

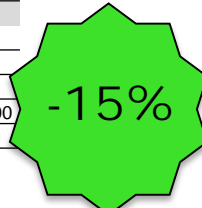

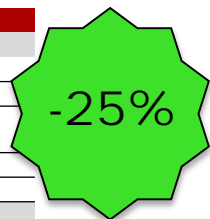

MagMAX family of products is designed to provide high-yield, consistent and reliable nucleic acid purification using silica-magnetic particle technology. Magnetic beads offer many benefits for isolating nucleic acids from cells, tissue, or blood, and viral RNA from cell-free samples. **Save 15% on your next order of MagMAX Isolation Kits.**

Reverse Transcriptases and cDNA Synthesis Kits

Thermo Scientific™ Maxima H Minus Reverse Transcriptase was developed through *in vitro* evolution of M-MuLV RT. The enzyme possesses an RNA-dependent and DNA-dependent polymerase activity but lacks Rnase H activity. The engineered enzyme features dramatically improved thermostability, 50X higher processivity, robustness and increased synthesis rate compared to wild type M-MuLV RT.

Format	Description	Size	Cat. No.
Maxima Reverse Transcriptases			
Reverse transcriptases	Maxima H Minus Reverse Transcriptase	2,000 U/10,000 U	EP0751/EP0752
	Maxima H Minus First Strand cDNA Synthesis Kit	20 rxns/100 rxns	K1651/K1652
cDNA synthesis kits	Maxima H Minus cDNA Synthesis Master Mix with dsDNase	50 rxns	M1681
	Maxima H Minus cDNA Synthesis Master Mix	50 rxns/200 rxns	M1661/M1662
dsDNA synthesis kits	Maxima H Minus Double-Stranded cDNA Synthesis Kit	10 rxns	K2561
High-Capacity Reverse Transcriptases			
Reverse transcriptases	High-Capacity cDNA Reverse Transcriptase Kit	200 rxns/1000 rxns	4374966/4374967
SuperScript Transcriptases			
Reverse transcriptases	SuperScript IV Reverse Transcriptase	2,000 U	18090010
	SuperScript III First-Strand Synthesis SuperMix	50 rxns	18080400
cDNA synthesis kits	SuperScript IV First-Strand Synthesis System	50 rxns	18091050
	SuperScript IV VILO Master Mix	50 rxns/500 rxns	11756050/11756500
	SuperScript VILO cDNA Synthesis Kit	50 rxns	11754050

Invitrogen™ SuperScript IV Reverse Transcriptase was developed for improved thermostability, processivity, and cDNA yields to enable superior performance with even the most challenging RNA samples. With high and improved processivity, SuperScript IV RT requires less time to generate full-length cDNA compared to wild type enzymes even in the presence of common inhibitors such as guanidinium and salts.

DNA Polymerases

Thermo Scientific™ Phusion High-Fidelity DNA Polymerases set a gold standard for high performance PCR: Featuring an error rate 50-fold lower than that of *Taq*, and 6-fold lower than that of *Pfu*, Phusion High-Fidelity DNA Polymerase is excellent choice for cloning, amplification of difficult (GC-rich) templates, long-range PCR (up to 20 kb) and other applications requiring high fidelity. Phusion DNA Pols offer robust performance with short protocol times, even in the presence of PCR inhibitors, and generate higher yields with lower enzyme amounts than other DNA polymerase.

Format	Description	Size	Cat. No.
Phusion High-Fidelity DNA Polymerases			
DNA polymerase	Phusion High-Fidelity DNA Polymerase	100 U/500 U	F530S/F530L
PCR master mix	Phusion High-Fidelity PCR Master Mix with HF Buffer	100 rxns/500 rxns	F531S/F531L
	Phusion High-Fidelity PCR Master Mix with GC Buffer	100 rxns/500 rxns	F532S/F532L
Site-directed mutagenesis	Phusion Site-Directed Mutagenesis Kit	20 rxns	F541
EquiPhi29 DNA Polymerase			
DNA polymerase	EquiPhi29 DNA Polymerase	250 U/1000 U	A39390/A39391
T4 DNA Polymerases			
DNA polymerase	T4 DNA Polymerase	100 U/500 U	EP0061/EP0062

Restriction and Modifying Enzymes

Thermo Scientific™ FastDigest Restriction Enzymes are an advanced line of exceptionally pure enzymes which offer complete digestion in 5-15 minutes using a universal buffer 100% compatible with downstream applications. The FastDigest collection of restriction enzymes is supported by 40 years of experience. **Buy your favourite enzyme from the offered selection and get 25% discount.**

Qubit 4 Fluorometer—fast answers for precious samples

Find out for sure if you have enough DNA or RNA for your experiment

The InvitroGene Qubit 4 Fluorometer is the next generation of the popular benchtop fluorometer designed to accurately measure DNA, RNA, and protein quantity. The Qubit 4 also easily measures RNA integrity and quality. The easy-to-use touch screen menus make it easy to select and run the assays you need, with results displayed just in seconds. **You can now get save 30% on Qubit 4 Quantification Starter kit, and stock up on Qubit assays for 10% less.**

Thermal Cyclers

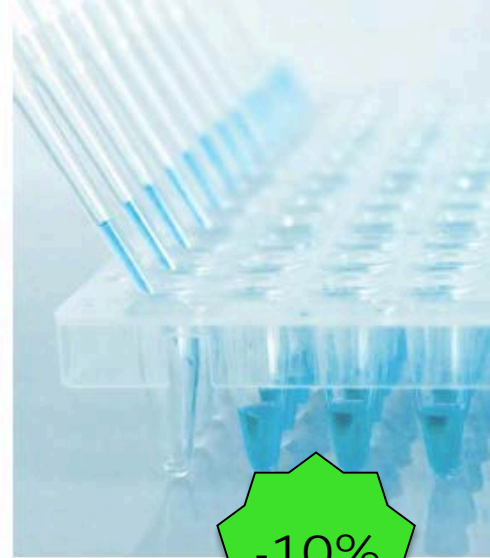

For a limited time now, **save 30% on selected Thermal Cyclers**. Applied Biosystems™ thermal cyclers have a reputation for reliability, accuracy, and user-friendly interfaces. The instruments enable precise, consistent results for every challenge and application. **Get your own MiniAmp Plus, SimpliAmp or ProFlex Thermal Cycler now with an extended rapid exchange warranty.**

Product	Cat. No.
MiniAmp Thermal Cyclers	
MiniAmp Plus Thermal Cycler with 2-Year Factory Warranty and 1-Year Rapid Exchange Warranty	A38076
MiniAmp Plus Thermal Cycler with 2-Year Factory Warranty and 3-Year Rapid Exchange Warranty	A38077
SimpliAmp Thermal Cyclers	
SimpliAmp Thermal Cycler with 5-Year Rapid Exchange Warranty	A27603
ProFlex	
ProFlex 3x32 Well with 2-Year Factory Warranty and 3-Year Rapid Exchange Warranty	A28986
ProFlex 96 Well with 2-Year Factory Warranty and 3-Year Rapid Exchange Warranty	A27934
ProFlex Dual 96 Well with 2-Year Factory Warranty and 3-Year Rapid Exchange Warranty	A27937
ProFlex Dual 384 Well Dual with 2-Year Factory Warranty and 3-Year Rapid Exchange Warranty	A30229

Together, Applied Biosystems™ and Invitrogen™ PCR products offer a direct route to reliable PCR results. Consistently arrive at results quicker, with more assurance and less optimization, using our portfolio of thermal cyclers, PCR plastics, reagents, and service plans. **Check out the rest of the promotion for reagents and PCR plastics for optimal PCR performance.**

First-class PCR results served
with every run

Food Safety, Animal Health and Diagnostic Testing

FOOD SAFETY

Solutions to help you deliver food products that meet the highest standards of food quality, safety, and authenticity that today's demanding consumers worldwide expect.

ANIMAL HEALTH AND DIAGNOSTIC TESTING

Our diagnostic solutions emphasize testing for pre-harvest and species diseases and have been rigorously developed to perform efficiently, conveniently, and reliably in challenging conditions.

For a limited time save 10% on selected products from the Food safety and Animal Health Portfolio.
